

Dear LEA CEDARS Data Warehouse Trainers,

This week the CEDARS team hosted CDW Overview webinars, open to any school employee in the state to attend. Attendance great, however, we'd really like to be able to showcase the application to more users in the state.

The CEDARS team has scheduled additional Overview and Intro to Dashboards sessions. Our next Overview session will be held Tuesday, October 16th, 2012 9:30 - 11:30 AM. Please share this link with your staff to register: <https://www1.gotomeeting.com/register/373208361>

These webinar sessions will be posted to the CEDARS Data Warehouse Events page on the NC Public Schools website shortly. Ask your peers and staff to visit <http://www.ncpublicschools.org/cedars/reporting/events/> next week to view the list of webinars scheduled through the calendar year.

In the meantime, we have posted the full webinar schedule and the registration links to the CDW LEA Trainer wiki. Please share this with your staff! Let's get the word out, have your LEA and school staff attend these sessions to get them started!

Please feel free to contact us with any questions at cedars-info@dpi.nc.gov.

Regards,
